Professional Objective

Proactive backend Engineer specialized in Odoo ecosystem development. Dedicated to driving digital transformation by architecting, customizing, and deploying robust, scalable ERP solutions that optimize enterprise workflows.

TECHNICAL SKILLS

- **ERP & Frameworks:** Odoo (Custom Module Development, Configuration, Native Testing, Studio), Django, Django REST Framework, Tailwind CSS.
- **Programming Languages:** Python, JavaScript, XML, PHP, Java, HTML5, CSS3.
- **Databases & DevOps:** PostgreSQL, MySQL, LWS Cloud Hosting, Git/GitHub, Ubuntu Linux Environment.
- **Soft Skills:** Tech Community Leadership, Complex Problem Solving, Cross-functional Team Collaboration.
- **Languages:** English (B2 - Professional & Technical), French (Native/Fluent).

PROFESSIONAL EXPERIENCE

Odoo & Backend Developer | bvortex | Lubumbashi, DRC

October 2025 – Present

- Architected and implemented a multi-tenant Odoo SaaS infrastructure managing master-client instance synchronization.
- Engineered an automated instance-locking core module triggered by subscription deadlines, securing company recurring revenue.
- Customized and deployed multiple production-ready Odoo modules for corporate clients.
- Collaborated daily within an agile, cross-functional engineering team to resolve system bottlenecks and optimize PostgreSQL queries.

Freelance Odoo Developer | APSchool

October 2025 – February 2026

- Led the end-to-end development of a custom School Management System ERP to streamline academic and administrative tracking.
- Managed the full cloud production deployment and environment configuration on LWS hosting.
- Conducted technical training sessions for the internal staff, ensuring smooth handovers and accelerating software adoption.

Google Developer Groups on Campus (GDGOC) Lead | Lubumbashi, DRC

August 2025 – Present

- Organize and host regional tech conferences and hackathons, regularly bringing together over 50 developers.
- Provide technical mentorship to the student community and supervised the Web Division of Espace ESIS (2024-2025).
-

PROJECTS

Bpay | *Python, Odoo (Internal bvortex Project)*

- Developed a specialized payroll and salary advance management ecosystem integrated directly into Odoo.
- Built secure custom REST API controllers to handle real-time payment synchronization via external Mobile Money network gateways.

HZONE (Immoconnect) | Django, Tailwind CSS | [Lien GitHub](#)

- Created a full-stack real estate listing and rental platform featuring an asynchronous, real-time user messaging system

VeriPay | Flask | TailwindCss | JWT

- Designed and engineered the secure user verification interface for an academic fee validation system during the Softday Hackathon.

EDUCATION & CERTIFICATIONS

- **Bachelor's Degree in Software Engineering (LMD)** | Université Don Bosco de Lubumbashi | *Expected Graduation: 2027*
- **State Diploma in Scientific Humanities** | C.S. de la Rédemption
- **CS50: Introduction to Computer Science** – Harvard University / edX (*In Progress*)
- **Data Structures and Algorithms with JavaScript** – freeCodeCamp
- **Responsive Web Design Certification** – freeCodeCamp
- **Version Control with Git and GitHub** – OpenClassrooms

INTERESTS

- Open Source Technology Watch,
- Reading
- Music (Guitar, Piano).
